MEADOWVALE FARMS
GLADIOLI BULBS

Blue Jay. Best blue variety on the market

FOR years I have been selecting the choicest novelties introduced by various growers, as well as the very best of the Hybrids offered by Mr. H. H. Groff; these two sources of supply, combined with the splendid vareties produced at Meadowvale Farms, give me a collection of Gladioli that really has no equal, while the bulbs I offer this season are unexcelled in quality and strength.

My named varieties are true, and my color sections are as pure as experienced labor can make them. My Mixtures and Collections are prepared, not grown, and are well balanced. In the preparation, parentage is a secondary consideration, the main object being to furnish the highest quality and strongest vitality possible, commensurate with the cost of labor and intelligence required to produce such. The best testimonial I can offer is that the great growth in my trade is from satisfied customers.
